

Marauder Sports Cars.
Shop 1, 642 Port Road,
BEVERLEY. SA 5009
Ph: (08) 45 4483.

Dear Sir / Madam,

thank you for your inquiry about the Marauder Sports Coupe. Below is some information which will tell you more about the car and the price of various kits. If you need more information please don't hesitate to either phone or write.

BODY.

The Marauder Sports Coupe is hand laid fibreglass in conjunction with a full steel sub frame. The body and sub frame are mated together in the factory prior to delivery. The body is predrilled ready to be mounted direct to the chassis.

CHASSIS.

The Marauder Sports Coupe uses a chassis from the type 3 V.W. The later disc front end is recommended but the older ones can also be used if converted to the disc front end. (The type 3 is the fastback, station sedan V.W not the beetle.) The suspension and gearbox is used with modifications carried out ex. factory or by yourself.

MOTOR.

The most popular choice is the Mazda Rotary being either 12A or 13B. Any four cylinder up to 2 litres can be used as well as the original V.W motor.

Kits (Basic up to Factory built)

BASIC.

This is the most popular kit. It comprises all of the fibreglass panels needed and the full steel sub frame. The sub frame is attached to the body prior to leaving the factory. All the holes are predrilled and all glass is supplied (not fitted) except the front windscreen (Holden Gemini). This kit with a few hours work can become a rolling chassis in no time.

PRICE: \$4,500.

STAGE 1.

This is the same as the 'basic kit' but with doors, glass (including windscreen), door locks, hinges etc fitted. The kit is built to a lock up stage.

PRICE: P.O.A.

STAGE 2. A complete lock up kit but mounted onto the V.W chassis. Chassis is stock standard with original wheels.

PRICE: P.O.A.

STAGE 3. As a stage 2 kit but with the chassis modified to a buyers needs and normally mags and tyres fitted.

PRICE: P.O.A.

FACTORY. A complete 'turn the key' car. A fully recond. motor, BMW dash, radio cassette, SAAS seats and steering wheel, wide mags and tyres fitted. A complete car is normally around the \$18,000 mark. This car can vary with different options added.

- OPTIONS.
- (1) Air conditioned.
 - (2) Power windows.
 - (3) Leather seats.
 - (4) Four wheel discs brakes.
 - (5) Metallic paint.

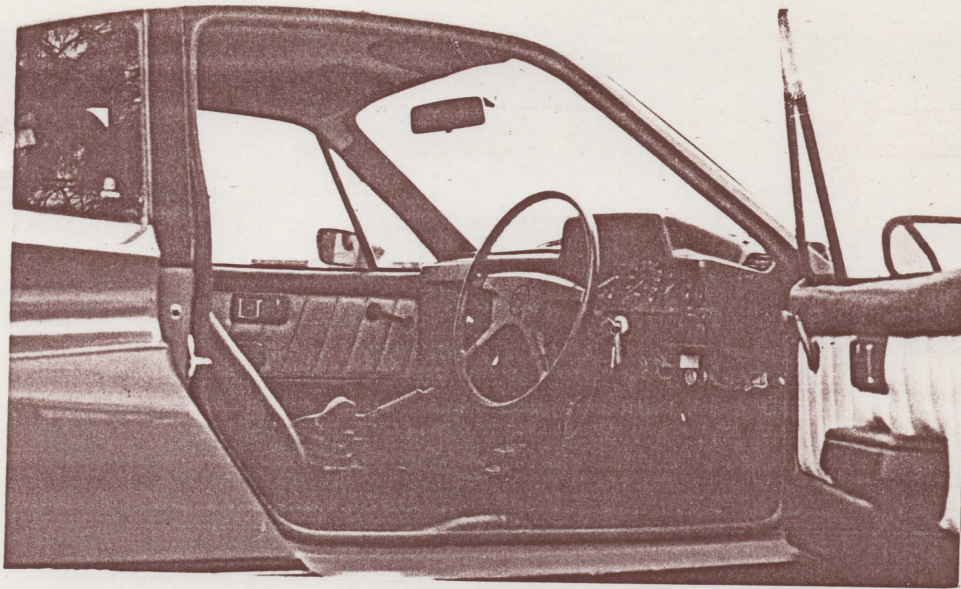

Note. The above stages can be varied by an owners requirements and are a guide only. While the 'basic kit' is fixed at \$4,500 it is not possible to fix other stages due to varying prices on parts needed.

However, once a deposit has been paid the quoted price for a kit remains the same.

A deposit of \$2,000 will book a 'basic kit'.

If you have any quiriies at all please contact us.
